High School of Abd Laaziz El Akremi Gafsa

PROFESSIONAL EXPERIENCE

Freelance/ FLUTTER

Project released:

06/2023 - Present

• CAMPFIRE STORIES APP FRONTEND

- Development of the interface of this application and liaison with the Django backend which is developed by my colleague.

• B.LOC APP FRONTEND

- Development of the interface of this application and liaison with the Django backend which is developed by my colleague.

• DAYTE APP FRONTEND

- Development of the interface of this application and liaison with the ExpressJs backend which is developed by my colleague.

• Gaspino App

- It is an application to reduce food waste developed in Flutter and NodeJs

• Medical App

- Developed a mobile medical application using Flutter for the front-end and Firebase for authentication, real-time database, and notifications. This app allows patients to book appointments with doctors, locate nearby hospitals and pharmacies, and communicate directly with their doctor through an integrated messaging system.

Freelance/ ReactJs

Project released:

• TeamFlow

- Developed a web-based team management application called *Team Flow*, with a front-end built in React and a back-end using Express.js. It enables centralized and efficient management of teams, members, projects, tasks, and equipment.
